i58

Compact Cash Recycler

i58 Cash Recycler is a newly designed Cash Recycler developed by GRGBanking. Featured with cost-effectiveness, easy-maintenance, high-security, improved stability by using brand-new Cash Processing Module, i58 meets various cash processing demands by enhancing human-computer interaction and user experience.

Features

Full Functionality & Leading Technology

- Cash recycling for multi-denominations
- Full image scanning of banknotes
- 50% faster processing speed, 60% less failure rate with new cash processing module

Flexible Deployment & Easy Maintenance

- Compact size, 40% less floor space, more flexible to deploy
- Modular design, an open-way for maintenance, more convenient
- Visual guidance interface for maintenance, easy to identify problem and operate

Comprehensive Security Design

- New cash loading mode, fully monitored and recorded the cash loading process
- Banknote Series Number Tracking System, fast locate suspicious banknotes
- Anti-skimming Card Reader
- UL291 safe

i58 Compact Cash Recycler

Functionalities

Basic Services
